EDUCATION

Süleyman Demirel University

Computer Engineering
4th Year Student

2020 - Present

SKILLS

- .NET Framework
- .NET Core
- Unity
- C#
- MSSQL SMS - SQL
- JavaScript
- JQuery

LANGUAGES

- **Turkish** *Native*
- **English** *B1 Intermediate*
- **German** *A1 Basic*

INTERESTS

- .NET Technologies
- Artificial Intelligence and the like
- Cycling
- Computer Games
- Playing Guitar
- Reading Books
- Ice Skating
- History, Literature
- Data Structures

PROFILE

Hello, I am Atakan, I am studying Computer Engineering at Süleyman Demirel University. I am interested in **.NET Technologies**. I know **ASP.NET MVC, ASP.NET WebForms, Windows Forms, Unity** and **C# Backend** to some extent in **.Net Framework**. I'm also trying to learn **ASP.NET Core Web API** and **ASP.NET Core MVC** in **.NET Core**. I know enough **MSSQL SMS** and **TSQL** to use when needed. I also have a certain level of Python knowledge. Besides all these, I am interested in artificial intelligence, image processing, machine learning and deep learning. Additionally, I am learning Design Patterns and Clean Code principles. I am a self-motivated person in software and technology. I am eager and motivated to take my skills to the next level and make a meaningful impact on the field. I am open to learning new languages and technologies as needed.

Founded in 2022, I had the opportunity to work with the **RaceRover Team** competing in the **TF-RobotaksiBinekHazırAraç** category. And after the test phase, we were qualified to compete as finalists. (2023 / Kocaeli)

I am currently looking for a part-time job or internship and see this as an opportunity to gain experience.

PROJECTS

.NET FRAMEWORK

- **AldiSatti** *:*   https://github.com/AtakanTurgut/aldisatti
  Shopping website application with ASP.NET MVC5.
  In order to confirm the cart, the user must first log in. The application also has an admin panel. Only people registered as administrators can login to the admin page. Admin can perform general operations through the panel.

- **ArabaSizin** *:*   https://github.com/AtakanTurgut/arabasizin
  Car sales/rental website application with ASP.NET MVC5.
  Users can view the details of the vehicles suitable for them and can perform rental and sales transactions.

- **EmlakBizim** *:*   https://github.com/AtakanTurgut/emlakbizim
  Real estate website application with ASP.NET MVC5.
  It is the first application that I am interested in .Net Technologies and it is important to me.

- **BikeStoreApp** *:* *https://github.com/AtakanTurgut/BikeStoreApp_Dapper*
  Bike Store application with Dapper and WindForm.
  User can save bike records in desktop app.

- **EmployeeApp** *:* *https://github.com/AtakanTurgut/EmployeeApp_Ado.Net*
  Layered architecture implementation with ADO.NET and WindForm.
  Multiple projects are created. They reference each other.

- **EmlakWebForms** *:* *https://github.com/AtakanTurgut/emlakWebForms*
  Real estate site construction using ASP.NET WebForms.

.NET CORE

- **CoreWeb** *:*   *https://github.com/AtakanTurgut/coreweb*
  Submit and share site application with ASP.NET Core MVC.

MERN

- **MekanBul** *:*   *https://github.com/AtakanTurgut/mekanbul*
  https://mekanbul.atakanturgut.repl.co/?enlem=37.8&boylam=35.6
