PROFILE

Hello, I'm Atakan and I have a BSc in Computer Engineering from Süleyman Demirel University. I am an expert in .NET Technologies and have advanced proficiency in **ASP.NET Core Web API** and **ASP.NET Core MVC**. I also have knowledge of **ASP.NET MVC**, **ASP.NET WebForms** and **Windows Forms** within the .NET Framework.

I have knowledge of **MSSQL SMS**, **T-SQL** and **MySQL** and also have basic knowledge of Python. I actively apply **Design Patterns** and **Clean Code Principles** in my work and try to improve myself in this regard.

With my strong passion for software and technology, I am always eager to improve my skills and contribute meaningfully to the field. I am also open to learning new languages and technologies when necessary.

Founded in 2022, I had the opportunity to work with the **RaceRover Team** competing in the **TF-Robotaksi-BinekOtonomAraç** category. And after the test phase, we were qualified to compete as finalists. (2023 / Kocaeli)

I am currently looking for a part-time job and see this as an opportunity to gain experience.
